

2019

FIVICS PRODUCTS CATALOGUE

STORY OF TEAM FIVICS IN 2018

FIVICS is proud of the performance and hard work put into the 2018 season by our Pro Staff archers!

We promise to continue working as hard as our athletes to ensure their best performance in the upcoming 2019 season. We wish you the best through the 2019 competitive season and on the road to the 2020 Tokyo Olympics!

We here at Fivics take to heart an old proverb: "The strongest principle of growth lies in human choice."

Thank you to all archers who choose Fivics!

Another Masterpiece
in archery.
Shoot and trust how it
goes

FOAM LIMBS

TIGHT AND SECURE GRIP | 3 important points in grip system

The Titan EX's design purpose is to maximize the speed of the arrow. With the perfect centroidal balance design and the TSG (tight and secure grip), we have achieved great stability and arrows can be controlled better at high speeds

STABLE & STEADY GEOMETRY

The Titan EX's design purpose is to maximize the speed of the arrow. With the perfect centroidal balance design and the TSG (tight and secure grip), we have achieved great stability and arrows can be controlled better at high speeds

7075 RISER VS EX 6061 RISER

The Titan EX riser is designed with aluminum 6061 to allow the best vibration absorption possible. Using hydraulic press machine, we have scientifically proven that our 6061 riser can tolerate higher pressure than risers made from the more rigid materials like the 7075 aluminum.

SKY FLEX CWP CARBON PREPREG MATERIAL

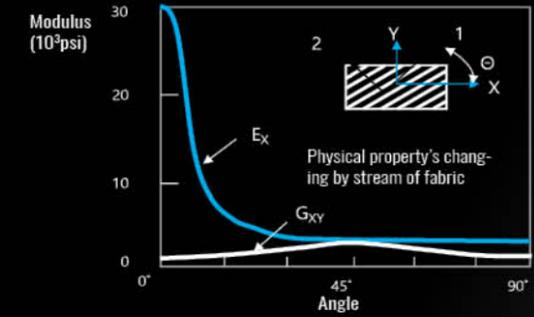

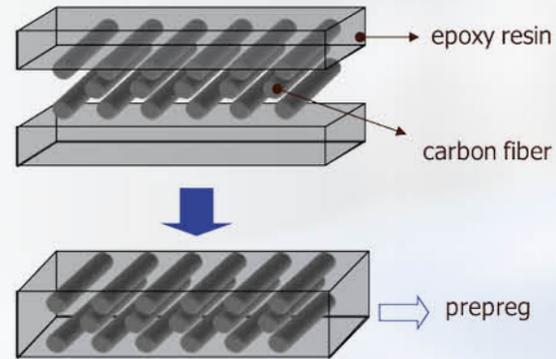

With the cooperation of Fivics Archery and SK Chemical, we have developed the best and unique Carbon "PrePrep material" for archery. This material allows efficient pull kinetics and quick restoration.

- ▶ The most important thing in archery, Limbs is carbon's raw material
- ▶ In the process of producing good carbon materials, prepreg technology of epoxy and carbon fiber is proportional to the tension and torsion of the limbs.

Prepreg = Pre + Impregnated Material

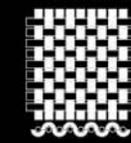

SKY FLEX = Natural Flex fiber + Epoxy Resin

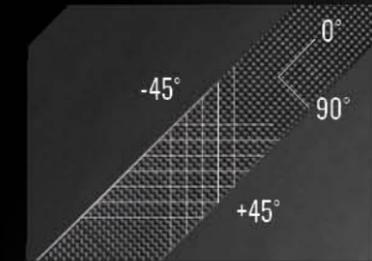

Carbon Material by SK Chemical

Increased stiffness but saved the same stability and uniform elasticity of the limb by cooperation between Fivics and SK chemical.

Plane Weave

Low Drapeability
High Crimp
Good Decoration

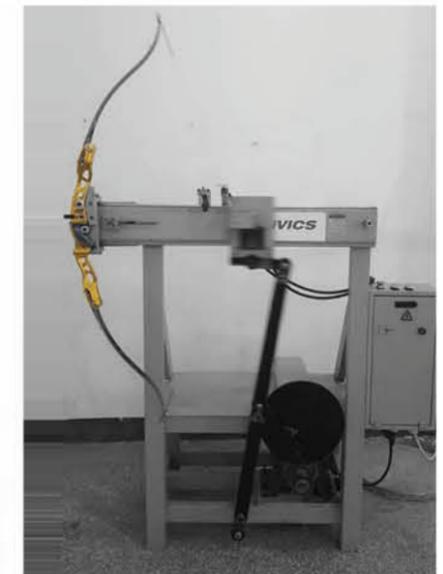

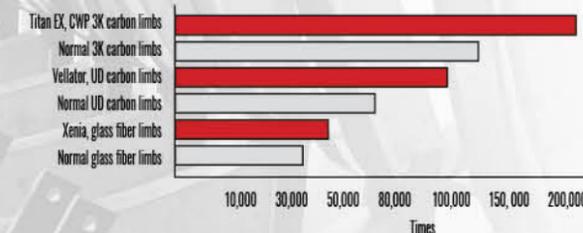

TITAN EX LIMBS - Surprising effect of 45 degrees carbon technology

The glass fiber is used to protect the carbon but this combination reduces arrow speed due to the heavy mass weight. On the other hand, 45 degrees carbon system increases shooting stability, protecting carbon as well as reinforcing anti-twisting.

Increased stiffness but saved the same stability and uniform elasticity of the limb.

Dry fire testing for breaking and strength of limbs

RISER TITAN EX

HX0525 » TITAN EX RISER

- Superfine CNC milling
- Special unique designed wooden grip
- Meticulous and Precise production
- Perfect centroidal balance
- Flawless coating
- Deep color from anodizing
- Aesthetically brilliant painting

PROCESSING » **CNC**
 WEIGHT » **1280g/1,330g(25")**
 - Using aluminum center block is 1280g
 MATERIAL » **AL 6061**
 TYPE » **RH**
 GRIP » **TSG Wood Grip**
 COLOR » **Anodized**

Stabilizer Mount Thread **5/16" - 24**
 Upstabilizer Mount Thread **5/16" - 24**
 Cushion Plunger Mount Thread **5/16" - 24**
 Clicker Mount Thread **6/32"**

Anodizing

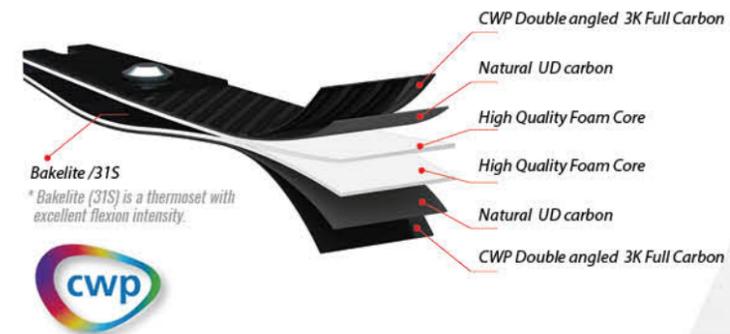

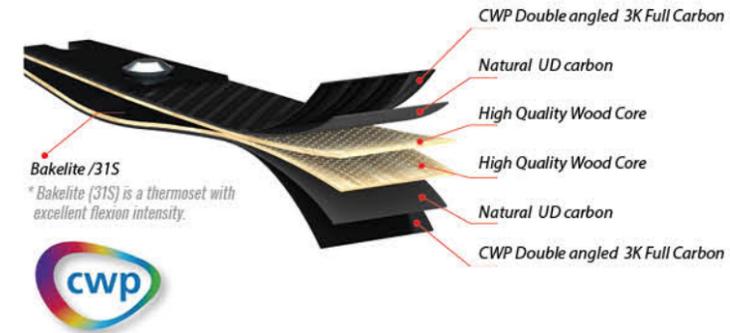

LIMBS TITAN EX

LXWC01 » TITAN EX WOOD CORE LIMBS LXCF01 » TITAN EX FOAM CORE LIMBS

- Clean and powerful shooting
- New Material : CWP carbon
- Light weight
- Improved limb tip design

MATERIAL » **CWP 3K Full Carbon**
 CORE » **Wood core / Foam core**
 BOW LENGTH » **66",68",70"**
 DRAW WEIGHT(lbs.) » **32#-50# (2# increments)**

Fivics limbs follow the international limb fitting system (ILF) and are guaranteed to fit in all Fivics risers and others.

RISER VELLATOR V2

HV0225 » VELLATOR 25" RISER
HV0223 » VELLATOR 23" RISER

- Full CNC
- The lightest weight
- Only 1,100grams
- Flawless coating
- Showy color from painting
- Perfect centroidal balance

PROCESSING » CNC
WEIGHT » 1,100g(25")/1,070(23")
MATERIAL » AL 6061
TYPE » RH
GRIP » Plastic
COLOR » Anodizing
LENGTHS » 23",25"

Stabilizer Mount Thread 5/16" - 24
Upstabilizer Mount Thread 5/16" - 24
Cushion Plunger Mount Thread 5/16" - 24
Clicker Mount Thread 6/32"

Anodizing

Black Red Orange Blue Green Silver

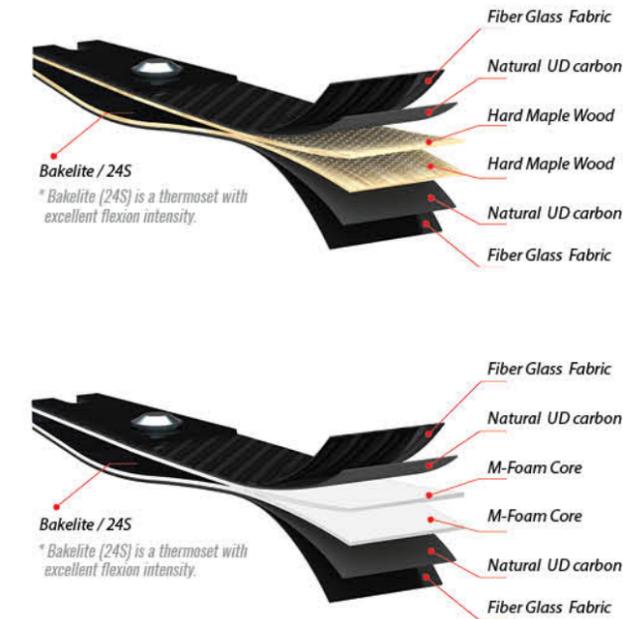

LIMBS VELLATOR

LVWC02 » VELLATOR WOOD LIMBS
LVFC02 » VELLATOR FOAM LIMBS

- Wood core only
- Makes high speed arrow
- Improved limb tip design
- Crosse carbon applied

MATERIAL » UD CARBON
CORE » Wood core / Foam core
BOW LENGTH » 66",68",70"
DRAW WEIGHT(lbs.) » 22#-38# (2# increments)

Fivics limbs follow the international limb fitting system (ILF) and are guaranteed to fit in all Fivics risers and others.

Perfect grouping!
Fivics will shoot
5 of the Xs for you,
the last is up to you.

FIVICS

ARROWS

ARROW FIVE-X

ARFX001 » FIVE-X - CARBON ARROW SHAFT ONLY

We, Fivics, hereby can tell you that FIVE-X is perfect for Archery competition arrow due to these outstanding reasons.

- Advanced Technology, Extreme Accuracy.
- Straightness: $\pm 0.001''$.
- Weight tolerance: ± 1.0 grains.
- Spine selection tolerance: $\pm 0.002''$.

WA RULES Book3, Chapter 11, Article 11.18

The Technical Committee concluded that if the bar extends to the wrist but not beyond (extends at or before the contact point between the hand and the wrist), then the extension is legal.
 World Archery C&R Committee, 22 September 2014

FINGER TAB

POLITE SERIES

Emphasizes the sense of unity in your hands.

KROSSEN

“Everyone can enjoy Archery”

Since Fivics archery center has launched on April, 2015, Fivics has been focusing on how to enjoy archery from not only top shooters but also normal peoples and now, we hereby introduce Fivics's new line up for 2019. Believe our dreams come true. This is Krossen line and we can say “Now, everybody can enjoy archery by using of this top quality and beautiful designed gears”. There were only small options for beginners or middle class before, but we Fivics think we have to increase more options for all of peoples who love Archery as we love.
